**4. FIRST AID MEASURES****Description of first aid measures**

General advice	If symptoms persist, call a physician.
Inhalation:	IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If symptoms persist, call a physician.
Skin contact:	IF ON SKIN: Wash with soap and water. Allow warm water to penetrate the bond and gently attempt to remove bonded areas without pulling the skin away from bonded area. If skin irritation persists, call a physician.
Eye contact:	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. If eyelids are bonded closed, release eyelashes with warm water by covering with a wet pad. If eye irritation persists, Get medical advice/attention.
Ingestion:	Not an expected route of exposure. Ensure that breathing passages are not obstructed. The product will polymerize immediately in the mouth making it almost impossible to swallow. Saliva will slowly separate the solidified product from the mouth.

**5. FIRE FIGHTING MEASURES****Extinguishing media**

Suitable extinguishing media:	Alcohol-resistant foam, dry powder, carbon dioxide, water spray jet
Unsuitable extinguishing media:	High volume water jet.

**Special hazards arising from the substance or mixture**

In the event of fire, the following can be released: Nitrogen oxides (NO<sub>x</sub>), carbon monoxide (CO), carbon dioxide (CO<sub>2</sub>).

**Advice for firefighters**

In case of fire and/or exposure do not breathe fumes. Firefighters should wear positive pressure self-contained breathing apparatus (SCBA). Firefighting operations, rescue and cleaning work under effect of combustion and smolder gases may be done with breathing apparatus. Dispose of contaminated extinction water according to official regulations.

**6. ACCIDENTAL RELEASE MEASURES****Personal precautions, protective equipment and emergency procedures**

For non-emergency personnel:	Use personal protective clothing.
For emergency responders:	Avoid contact with eyes or skin.

**Environmental precautions**

If leakage occurs, dam up. Resolve leaks, if possible, without risk. Prevent surface and ground-water infiltration, as well as ground penetration. Prevent from entering drainage system. If accidental entry into drainage system occurs, inform responsible authorities.

**Methods and material for containment and cleaning up**

Do not use cloth for clean-up. Flood with water to complete polymerization and scrape up the polymer. Solid material can be disposed as non-hazardous waste.

**Reference to other sections**

For personal protective equipment see Section 8 and for disposal instructions see Section 13.

**7. HANDLING AND STORAGE****Precautions for safe handling**

Advice on safe handling	Handle in accordance with good industrial hygiene and safety practice. Avoid contact with eyes, skin and clothing. Avoid breathing vapor and mists. Wash thoroughly after handling. Avoid contact with fabric and paper goods. Contact with these may cause polymerization that can generate smoke and strong irritating vapors, and can cause thermal burns.
Advice on general occupational hygiene:	Wash hands and face before eating.

**Conditions for safe storage, including and incompatibilities**

Keep in a cool, well-ventilated area away from heat, sparks and open flame. Keep container tightly closed until ready to use. Incompatible products: Do not store together with alkalis.

**8. EXPOSURE CONTROLS / PERSONAL PROTECTION****Exposure controls**

Appropriate Engineering Controls:	If general ventilation is insufficient to maintain vapor concentration below established exposure limits, use protective downdraft exhaust ventilation.
Individual protection measures	Keep away from food stuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with eyes and skin
General protective and hygienic measures	Safety glasses with side shields or chemical splash goggles.
Eye/Face protection	
Skin and body protection	Wear protective gloves and protective clothing. Do not use PVC, rubber, cotton or nylon gloves.
Hand protection	Tested protective gloves are to be worn: Suitable material: synthetic rubber gloves. In the cases of special applications, it is recommended to check the chemical resistance with the manufacturer of the gloves.
Respiratory protection	None needed.
General Hygiene Considerations	When using do not eat, drink or smoke. Regular cleaning of equipment, work area and clothing is recommended.
Environmental exposure controls	Do not empty into drains or the aquatic environment.
